NEWS RELEASE

Motorists travelling on I-405 are encouraged to use westbound Interstate 105 (I-105) as an alternate route to LAX. Drivers should expect delays and are strongly advised to use alternate routes or avoid the area. Additionally, motorists can check traffic conditions before they leave by visiting the Caltrans [Quickmap](#).

The project on I-405 stretches from Port Rd. in Culver City to I-105. The works includes, installation of roadside pavement, Maintenance Vehicle Pullouts (MVPs) and vegetation control. The project will also include installation of sleeves for existing sign posts, access gates, vine planting at sound wall locations to deter graffiti, installation of cable railings, and improvements to irrigation systems. The estimated completion for the project is spring 2019.

Caltrans reminds drivers to be "Work Zone Alert" and to "Slow for the Cone Zone."
